

## 1、 Specification and Features

<b>Component :</b>	<b>Description :</b>
Model Number:	15.6-inch portable Industrial computer chassis
Brand :	OEM & Osborn
Dimension:	Reference design
Material	Aluminum-Magnesium Alloy & rubber
Structure:	1.Rack mount 2.Refined workmanship and selected quality 3.Scientific design and stable functions 4.Excellent heat dissipation design
Power Supply bkt :	Mini 1U power supply
PCI slot :	2 X PCI or 2 X PCIE
Mother Board :	Mini ITX Board ( 17 X 17cm )
Order lead time:	15-35 days
Payment terms:	T/T,L/C ,etc
GW/NW :	9/6 kg
Packaging :	Carton
Color :	Green ,black and others
Loading port:	ShenZhen or GuangZhou
Specification :	CE/FCC/ROHS/CCC

Product Applications:	Industrial automation; Medical; Military; Network communications; Telecommunications; Transportation; Defense equipment .
-----------------------	---

## **2、 Integrated:**

- 1, the screen flip by upside ;
- 2, portable reinforced .

## **3、 Advantage**

- 1、 High-strength magnesium alloy structure, the surface treatment with scratch-resistant coating, EMI / RF protection layer;
- 2、 The four corners of the chassis adopt shock absorption and seismic treatment;
- 3、 The disk shelves with shock absorption processing to ensure data more security;
- 4、 Use non-slip handle;
- 5、 Widely used in military, field operations, industrial fields, services, network communications, testing, transportation and other special places.
